

Learning Objectives

- ❑ Differentiate between emotions and moods.
- ❑ Identify the sources of emotions and moods.
- ❑ Show the impact emotional labor has on employees.
- ❑ Describe affective events theory.
- ❑ Describe emotional intelligence.
- ❑ Identify strategies for emotion regulation.
- ❑ Apply concepts about emotions and moods to specific OB issues.

4-3

Affect, Emotions, and Moods

Affect: Affect is a broad term that refers to a person's overall experience of feelings or emotions, including both short-term emotions and long-term moods.

Emotions:

What it is: Emotions are feelings that happen because of something specific, like an event or situation.

Examples: Happiness, sadness, anger, or fear.

How long it lasts: These feelings usually last for a short time, like a few minutes.

How it feels: Emotions come with noticeable changes, like smiling when happy or frowning when sad.

Moods:

What it is: Moods are more general feelings that are not tied to a specific event.

Examples: Feeling good or feeling down.

How long it lasts: Moods can last longer than emotions—sometimes for hours or even days.

How it feels: Moods don't show up as obvious changes in how we act, like emotions do.

LO 1

Differentiate Between Emotions and Moods

➤ Six essentially universal emotions

1. Anger
2. Fear
3. Sadness
4. Happiness
5. Disgust
6. Surprise

4-5

Moral Emotions in Simple Terms

What They Are:

Moral emotions are feelings that help us decide what is right or wrong. They happen when we quickly judge a situation, like feeling guilty when we do something bad or proud when we do something good.

How We React:

These emotions make us behave in certain ways. For example, if we hurt someone, we might feel guilty and want to apologize. If we help someone, we might feel proud and happy.

How We Learn Them:

We start learning moral emotions when we are kids. Our parents, teachers, and experiences teach us what is right and wrong, shaping how we feel about different actions.

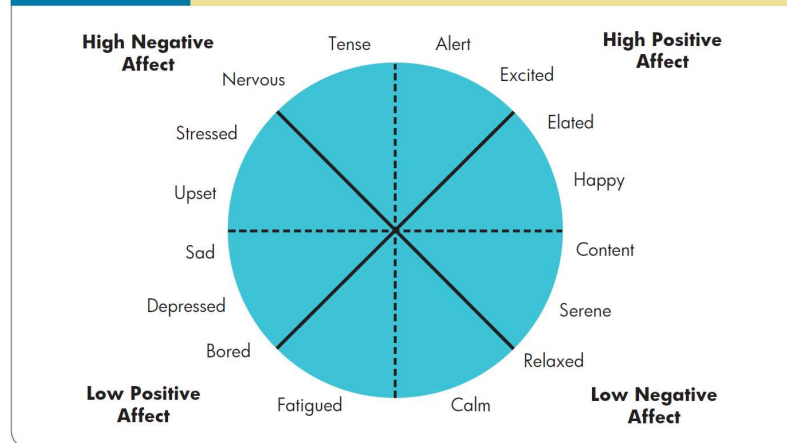

Cultural Differences:

Since different cultures have different ideas about right and wrong, moral emotions can also vary. What feels wrong in one culture might not feel as bad in another.

LO 1

Differentiate Between Emotions and Moods

OB POLL

Emotional States

Percentage of people who reported experiencing emotions on a daily basis*

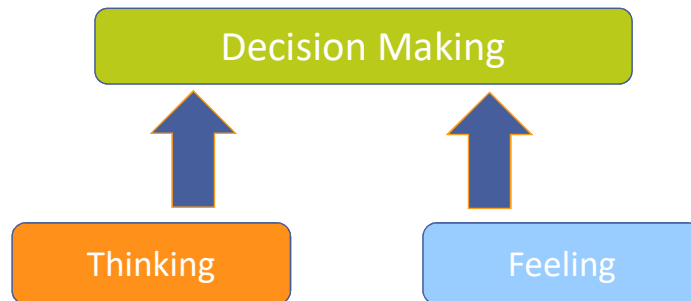

* Respondents in 150+ countries worldwide over two years were asked whether they experienced five positive (well-rested, treated with respect, enjoyment, smiling and laughing, learning or doing something interesting) and five negative emotions (anger, stress, sadness, physical pain, worry) daily.
Source: J. Clifton, "Singapore Ranks as Least Emotional Country in the World," Gallup (November 21, 2012), <http://www.gallup.com/poll/158882/singapore-ranks-least-emotional-country-world.aspx>.

4-9

LO 1

Do emotions make us ethical?

Emotions can help us be ethical because they guide us in understanding what is right or wrong. For example:

Empathy: When we feel someone else's pain, we are more likely to help them or avoid hurting them. This makes us act kindly and fairly.

Guilt: Feeling guilty after doing something wrong can push us to apologize or make things right.

Compassion: Caring for others motivates us to support and protect them.

Anger at Injustice: When we see unfairness, our anger can inspire us to stand up for what is right.

LO 2

Identify the Sources of Emotions and Moods

- Personality
 - Moods and emotions have a trait component.
 - **Affect intensity**: how strongly people experience their emotions.
- Time of Day
 - There is a common pattern for all of us.
 - Happier in the midpoint of the daily awake period.
- Day of the Week
 - Happier toward the end of the week.

4-11

LO 2

Identify the Sources of Emotions and Moods

- Weather
 - **Illusory correlation** – no effect.
- Stress
 - Even low levels of constant stress can worsen moods.
- Social Activities
 - Physical, informal, and dining activities increase positive moods.

4-12

LO 2

Identify the Sources of Emotions and Moods

- Sleep
 - Poor sleep quality increases negative affect.
- Exercise
 - Does somewhat improve mood, especially for depressed people.

4-13

LO 2

Identify the Sources of Emotions and Moods

- Age
 - Older people experience fewer negative emotions.
- Sex
 - Women tend to be more emotionally expressive, feel emotions more intensely, have longer-lasting moods, and express emotions more frequently than men.

4-14

LO 3

Show the Impact Emotional Labor Has on Employees

Emotional labor means controlling emotions to do a job, like staying polite with customers. It can affect employees in these ways:

Good Effects

Skill Growth: Builds better communication and empathy.

Job Success: Helps in customer satisfaction and teamwork.

Career Boost: Can lead to promotions.

Bad Effects

Burnout: Feeling tired and overwhelmed.

Fake Feelings: Hiding real emotions reduces happiness.

Stress: Pressure to act a certain way causes anxiety.

Health Issues: Long-term stress can harm mental and physical health.

LO 4

Describe Affective Events Theory

➤ **Affective events theory (AET):** Affective Events Theory (AET) explains how events at work create emotional reactions, which influence employees' behavior and attitudes.

➤ Work events trigger positive or negative emotional reactions to which employees' personalities and moods predispose them to respond with greater or lesser intensity.

LO 4

Describe Affective Events Theory

- AET offers two important messages:
 - Emotions provide valuable insights into how workplace hassles and uplifting events influence employee performance and satisfaction.
 - Emotions, and the events that cause them, should not be ignored at work because they accumulate.

4-17

LO 5

Describe Emotional Intelligence

- **Emotional Intelligence:**
 - A person's ability to:
 - Perceive emotions in the self and others.
 - Understand the meaning of these emotions.
 - Regulate one's emotions accordingly in a cascading model.

4-19

LO 6

Identify Strategies for Emotion Regulation

- **Emotion regulation** involves identifying and modifying the emotions you feel.
- Emotion Regulation Influences and Outcomes
 - Diversity in work groups may help us to regulate our emotions more consciously and effectively.

Copyright © 2017 Pearson Education, Ltd.

4-20

LO 6

Identify Strategies for Emotion Regulation

- Emotion Regulation Techniques
 - Surface acting
 - Deep acting
 - Emotional suppression
 - Cognitive reappraisal
 - Social sharing
- The best option though is to recruit positive-minded individuals and train leaders to manage their moods, attitudes, and performance.

4-21

LO 7

Apply Concepts About Emotions and Moods to Specific OB Issues

- Selection
 - EI should be a hiring factor, especially for social jobs.
- Decision Making
 - Positive emotions can lead to better decisions.
- Creativity
 - Positive mood increases flexibility, openness, and creativity.

Copyright © 2017 Pearson Education, Ltd.

4-22

LO 7

Apply Concepts About Emotions and Moods to Specific OB Issues

- Motivation
 - Positive mood affects expectations of success.
 - Feedback amplifies this effect.
- Leadership
 - Emotions are important to acceptance of messages from organizational leaders.
- Negotiation
 - Emotions can affect negotiations.

4-23

LO 7

Apply Concepts About Emotions and Moods to Specific OB Issues

- Customer Service
 - Emotions influence customer service.
 - Influences repeat business and customer satisfaction.
 - **Emotional contagion:** “catching” emotions.
- Job Attitudes
 - A good day at work tends to be followed by a good mood at home and vice versa.
 - This usually dissipates overnight.

Copyright © 2017 Pearson Education, Ltd.

4-24

LO 7

Apply Concepts About Emotions and Moods to Specific OB Issues

- Deviant Workplace Behaviors
 - Negative emotions lead to *workplace deviant behaviors*.
 - Actions that violate norms and threaten the organization.
- Safety and Injury at Work
 - Don't do dangerous work when in a bad mood.

Copyright © 2017 Pearson Education, Ltd.

4-25

Implications for Managers

- Recognize that emotions are a natural part of the workplace and good management does not mean creating an emotion-free environment.
- To foster effective decision making, creativity, and motivation in employees, look to model positive emotions and moods as much as is authentically possible.
- Provide positive feedback to increase the positivity of employees. Of course, it also helps to hire people who are predisposed to positive moods.

Copyright © 2017 Pearson Education, Ltd.

4-26

Implications for Managers

- In the service sector, encourage positive displays of emotion, which make customers feel more positive and thus, improve customer service interactions and negotiations.
- Understand the role of emotions and moods to significantly improve your ability to explain and predict your coworkers' and other's behavior.
